EXPERIENCES

Radar
Founder & Product

Jan 2025 - Present

Building anti-tracker mindfulness app from concept to launch. Leading full product development cycle including user research, wireframing, prototyping, and AI integration. Developing unique 60-second micro-ritual experience focused on emotional wellness without performance pressure. Currently validating with beta users and preparing for Q1 2026 launch.

Mental Wellness Startup
Product Designer
Dubai-based Startup

June 2024 - June 2025

Owned end-to-end product design for care-tech platform from branding to production-ready mobile app. Architected complete user flows surviving 4+ iterations to MVP. Built accessible UI with retention-focused features generating 50+ qualified leads pre-launch. Established design system and development workflows while collaborating with distributed team across 3 time zones.

Oddbee
UX/UI Designer/Motion
Toronto Creative Agency

Jan 2022 - Apr 2025

Designed digital products for funded startups and enterprise clients across AI, fintech, and emerging tech sectors. Key projects include:

- Balance: Led design system consolidation for crypto custody platform managing $2B in assets
- CentML: Created UI and motion assets for AI platform (acquired by NVIDIA)
- Promise Robotics: Designed website supporting $15M Series A raise
- WebUnleashed: Produced Gold Award-winning conference title sequence
- Highline Beta: Developed 3D illustration system for venture studio
- Human Feedback: Pioneered AI-human hybrid design workflow
- Sibli: Supported rebrand and $4.5M seed round through web/motion design

Eventum Premo
Digital Designer
Moscow Creative Studio

2019 - 2021

Designed visual identities and digital experiences for cultural events and tech conferences. Created motion graphics, event branding, and interactive installations.
